Keywords: Domain Account transfer registration register

Summary: Any domain name you registered with us can be sold or transferred to any party. There is no charge for this process. The party who is receiving the domain registration must set up an account with us.

Headings

[To Transfer the Registration of a Domain](#)

Any [domain](#) name you registered with us can be sold or transferred to any party. There is no charge for this process. The party who is receiving the [domain](#) registration must set up an account with us. Transferring the registration of a [domain](#) name removes the [domain](#) name from your list of registered [domain](#) names and places it in the new registrant's account.

To Transfer the Registration of a [Domain](#)

Log in to your Account Manager.

From the [Domain](#) Names menu, click Manage Domains.

Select the check box for the [domain](#) you want to sell, and then click Change Account.

In the right pane, type the new registrant's information.

Click Save Changes.

The NEW REGISTRANT will be notified by email with instructions on how to complete the process and assume registration of the [domain](#) name.
