Keywords: FTP backup

To Set Up Your FTP BackupLog in to your [Account Manager](#). In the **My Products** section, select **Dedicated/Virtual Dedicated Servers**. Click **Launch Manager** next to the server for which you requested the FTP Backup service. This will open the **Hosting Manager**. From the Support section, select **FTP Backup**. Enter your user name, enter and confirm your password, and then click **Continue**. Verify your FTP Backup account settings and click **Update**. Once your FTP Backup account is created, the IP address for your FTP server will display on the account summary page of your **Hosting Manager**.
