Keywords: Online Photo Filer

With Online Photo Filer, you can design, build, and manage an online photo gallery; all you need is an Internet connection and a Web browser. While your specific computer hardware and the type of Internet connection you use play a big role in how fast or slow any Web application works, Online Photo Filer can be used on virtually any system, regardless of the type of Internet connection you use. Online Photo Filer works with dial-up, DSL, or high-speed Internet connections. Your photo galleries can be created using, or viewed by, any of the following Web browsers: **PC Users:** Internet Explorer® v6.0 or later Firefox™ v2.0 Any number of common Web browsers **Mac Users:** Safari™ 2.x or higher Internet Explorer for Mac Firefox for Mac Beta versions of Web browsers may not work properly with Online Photo Filer. **NOTE:** If you are a subscriber to AOL®, Earthlink®, or any other service that provides a unique browser for you to access the Internet, we suggest you minimize your primary browser and open Internet Explorer to access and work in Online Photo Filer.
