You can uninstall the Web-Based Email Desktop Notifier using Add/Remove Programs from your control panel. If the Desktop Notifier is running when you uninstall, it will stop. To Uninstall Desktop Notifier From the **Start** menu, select **Control Panel**. In your Control Panel, double click **Add or Remove Programs**. In the **Add or Remove Programs** window, select Desktop Notifier from your list of currently installed programs. Click **Remove**. Click **Yes** to confirm you want to remove Desktop Notifier from your computer.
