Keywords: Desktop Notifier

The Desktop Notifier is available only if you are running Web-Based Email in Windows. You get instant notifications when you receive new messages in your Web-Based Email account. To install Desktop Notifier from your Web-Based Email account, click the **Desktop Notifier** link in the upper right corner of the window. On the Desktop Notifier **Installer** page, click **Install Now**. Follow the prompts through the installation wizard. **NOTE:** If you are running Windows and using Internet Explorer, when you install the Desktop Notifier, you also enable the Image Paste and the Multiple Download features. For more information, see [Copying and Pasting Content and Images Using Internet Explorer](#) and [Downloading and Viewing Message Attachments](#).
