Keywords: Fax Thru Email Account

Your Fax Thru Email account comes with a monthly minute available quota for outgoing faxes. A single page fax roughly equates to one minute. Incoming faxes are free unless you have a toll-free fax number. If you want to increase your monthly limit, you can purchase a Minute Pack and apply it to your account. Minute Packs are available in 100-minute increments. To Apply a Minute Pack to your Fax Thru Email Account Log in to your [Account Manager](#). From the **My Products** section, click **Fax Thru Email**. On the account you want to modify, click **Activate Minutes**. Select the Fax Thru Email account to which you want to apply the Minute Pack. In the **Account Details** section, select the **Minute Pack** you want to use, and click **Apply Credit**. The minute pack is applied to your account. To verify the minutes on your account, click **Launch** to open Fax Thru Email and then go to the Account Overview page. Your new Minute Pack minutes are added to the Available Minutes list.
