Keywords: Online File Folder account

The Online File Folder Dropbox allows you to receive files directly into your Online File Folder account. The Dropbox folder serves as an inbox for files sent to you at `var id='username';var host1='onlinefilefolder.com';var host2="";document.write("+id+'@'+host1+'.'+host2+")`; where "username" is your login name. You must enable your Dropbox to begin receiving files. For information about enabling and setting options for your Dropbox, see [Setting Options for Dropbox](#) in the Online File Folder help system. **NOTE:** You cannot delete, rename, or move the Dropbox folder.
