Keywords: Whois search

You can upload images to your Business Registration for viewing by people performing a Whois search of your domain. You can upload images of business licenses, certifications, memberships, and product pictures. Currently, .jpg, .bmp, .gif, .png, and .tif file formats are all supported. You can upload up to four images. To Add an Image to Your Business Registration Log in to your [Account Manager](#). In the **My Products** section, click **Business Registration**. Next to the account you want to modify, click **Manage Account**. Click **Next** until you reach the **Extras** tab. To add an image, click **Click here to upload picture**. Click **Browse** and navigate to the appropriate image. Click **Open**, and then click **Ok**. Enter a picture description. Click **Next**. To remove an image, click the **X** icon next to the appropriate image.
