Keywords: File Manager Hosting Control Center

The File Manager, located in the Hosting Control Center, provides a way to easily manage your Web directory, including copying, moving, uploading or downloading, renaming, and deleting files or entire directories. To Access Your File Manager in the Hosting Control Center Log in to your [Account Manager](#). In the **My Products** section, select **Hosting Account List**. Click **Open** next to the hosting account you want to manage. Click the **File Manager** icon in the **Content** section of the Hosting Control Center. In this area, you can manage your files and directory folders. For more information on actions you can perform in the File Manager, see the [articles relating to the File Manager](#).
