Keywords: server

cPanel's WebHost Manager is a simple and intuitive Web-based control panel that you can use to manage your server. More specifically, you can use WebHost Manager to set up a domain, DNS, and email on your virtual dedicated/dedicated server. For information on how to access WebHost Manager on your server see [Accessing cPanel's WebHost Manager on Your Server](#). For more information on WebHost Manager see the [cPanel Web site](#).
